THE LATEST.

As a result of an investigation into charges of violation of the internal revenue law, John G. Capers, Commissioner of Internal Revenue, has issued formal instructions to Collector P. L. Goldsborough at Baltimore directing him to seize the Carroll Springs Distillery Company's plant, one of the largest registered grain distilleries in Maryland. The seizure will involve the Government's taking possession of nearly 5,000 barrels of whiskey.

The burning of the Good Spring Presbyterian church, near Fredonia, Caldwell county, is attributed to night riders. The same congregation had their place of worship burned about six months ago, and they had just completed their new edifice. Bloodhounds, it is said, trailed a man who has been suspected as one of the leaders of the culprits that fired the church.

For more than four hours the Democratic members of the Senate conferred yesterday on tariff legislation. At the end of that time it was announced that they had agreed to support an income tax amendment and to stand for substantial reductions in schedules and particularly for a decrease in the rates on the necessities of life. The conference was entirely harmonious.

Louisville capitalists have purchased the Vincennes, Ind., Traction and Light Company, which includes the street railway system. The officers of the new company are: S. A. Culbertson, president; S. S. Bush, vice president and general manager; Atilla Cox, secretary and treasurer. The new company plans a big improvement in the street car system of the Indiana city.

By an agreement between attorneys for the Lorton Jockey Club and the Kentucky Racing Commission the Court of Appeals yesterday advanced for oral argument on May 6 the appeal of the commission from Judge Harbeson's decision in the Kenton Circuit Court, holding the legislative act creating the commission unconstitutional.

Prof. R. N. Roark, one of the most eminent educators in the State and head of the Eastern Normal School at Richmond, died at Cincinnati yesterday after a lingering illness. Prof. Roark was the author of several teachers' text books.

Harry A. Astell was found guilty at Bloomington, Ind., of embezzling over \$35,000 of the funds of the Real Estate Building and Loan Association, of which he was secretary for ten years. Astell had previously been acquitted of a charge of embezzling \$7,000 of the city's funds.

James A. Patten, the veteran wheat king of the Chicago grain pit, denied in an interview yesterday that he had a corner on wheat and declared his intention of getting out of the market. He ascribed the present rise in wheat to the natural law of supply and demand.

The Missouri House of Representatives passed the bill submitting a constitutional amendment providing for state-wide prohibition to a vote of the qualified electors of the State. The bill now goes to the Senate.

The ice in the Niagara gorge has settled considerably and shows that several of the locks have been damaged from their moorings and that the damage will be more serious than had been suspected.

The charter of the Tennessee, Alabama and Kentucky railway was filed with the Secretary of State at Nashville. The terminals of the road are given as Louisville and Chattanooga.

KENTUCKY BOY GETS FREEDOM

Eugene Gardner Acquitted In San Francisco.

Charged With Killing Negro On the High Seas.

Attorney W. A. Young Makes A Defense.

SECOND TRIAL OF CASE.

San Francisco, April 14.—(Special.)—The trial of Eugene Gardner, charged with the murder of a negro on the high seas, was resumed this morning in the United States District Court. The case was taken up by the attorneys for the defense, who made a strong plea for the acquittal of their client.

Jury Out Twenty-Five Hours.

The jury remained in doubt of a verdict for twenty-five hours and returned at three to Judge Van Fleet to state that they could not agree. The bench, having in mind the disagreement of the jurors in the preceding trial, sent the twelve men back with further instructions. This afternoon the signal came to the watchers that a decision had been arrived at and betting among the crowd outside stood 10 to 4 that it was a conviction.

Gardner Breaks Down.

Young Gardner, stoical during the trial broke down at the last moment, and wept frantically and boyishly as he alternately clutched the hands of his attorneys, Will A. Young, of Morehead, and his counsel, San Francisco, Taylor Maddux, who incidentally sacrificed much for the young man.

Shiphate Bades Good-Bye.

The last to bade good-bye at the ferry depot was John C. Hays, a faithful friend of Gardner's, who was a shipmate and who voluntarily stayed five months in the county jail to stay by his chum and swear to his innocence at a long deferred trial.

Evident Strong Interest.

Prominent among Kentuckians who evinced strong interest in the case was Col. John H. Whallen, former Chief of Police, theatrical magnate and prominent Democratic politician of Louisville.

Attorney Young so far recognized the mastery part played in the defense of Young Gardner by attorney Parker Maddux as to invite him to participate in the defense of Beach Hays, who is to be tried in Kentucky next week.

Story of Adventurous Youth.

Eugene Gardner, an adventurous Kentucky youth of 15, chafing under the restraints of his home and home life, decided to go to sea. He was a sailor by trade, and he was a sailor by nature. He was a sailor by nature, and he was a sailor by trade. He was a sailor by nature, and he was a sailor by trade.

Negro Browbeat Youngster.

Cardozo, who acted occasionally as a "browbeater" or petty officer, was a man of powerful physique, while Gardner was a strikingly handsome and loquacious youth. On the morning of the attack, the two were on the high seas, and the negro was the aggressor.

Threatened Gardner's Life.

One day, after a prolonged orgy on wood alcohol, when the negro had been particularly abusive, he threatened to kill Gardner. He was a man of powerful physique, while Gardner was a strikingly handsome and loquacious youth.

Gardner Kills Negro.

Just what happened at this juncture remains shrouded in mystery. Several statements were made, but they were all contradictory. It is believed that Gardner was the aggressor, and that he killed the negro in self-defense.

Brought To Port In Irons.

The frigate occurred last August, and Gardner was brought to San Francisco in irons and incarcerated in the Alameda county jail, near San Francisco, charged with the murder of a negro. He was a sailor by trade, and he was a sailor by nature.

News Reaches Friends.

The news of the helpless plight of Gardner, however, reached his home State and his friends. They were all anxious to see him, and they were all anxious to see him.

NOTED TEACHER PASSES AWAY

Dr. Ruric N. Roark Dies in Cincinnati.

Was At Head of Eastern Normal School.

Distinguished As Educator Throughout State.

WRITER OF MANY TEXT BOOKS.

Richmond, Ky., April 14.—(Special.)—Dr. Ruric N. Roark, president of the Eastern Kentucky State Normal School, of this city, and one of the most widely known educators in the Middle West, died at noon today at the Good Samaritan Hospital, Cincinnati, in his 60th year, where he had been under treatment for the past three months, suffering from a general breakdown due to overwork.

Death Brings Deep Regret.

It was with deep regret that citizens of this city received news of the death of one whom they have looked upon as a great educational leader. Both the Normal and Model schools have suspended for the week in respect to their honored president.

Sketch of Dr. Roark.

Dr. Roark was born at Greenville, Ky., May 19, 1859. He was educated in the Greenville Academy and in the National Normal University at Lebanon, O., where he was graduated in 1881. He was married to Mary C. C. Roark in 1882, and taught for several years in his alma mater. In 1885 he established the Glasgow Normal School at Glasgow, Ky., where he remained four years, when he was selected as dean of the pedagogical department of State University at Lexington. In this position he remained for seventeen years.

Takes Post-Graduate Course.

After spending a year in post-graduate work in Clark University, at Worcester, Mass., he was selected as president of the Eastern Kentucky State Normal School. In which position he remained up to the time of death. Dr. Roark also received the degree of Ph. D. from the National Normal University at Lebanon, O., in 1896.

Author of Text Books.

He was the author of some very popular teachers' professional books. Chief among these is his "Psychology in Education," which has had a very wide sale. His other books are "Economy in Education," "Method in Education" and "General Outline of Pedagogy."

Family At Deathbed.

Dr. Roark is survived by a wife and four children. His death was a great loss to the educational world, and his death was a great loss to the educational world.

DEATH BRINGS SADNESS TO LEXINGTON FRIENDS.

Prof. Roark Was Considered One of the Ablest and Best Equipped Teachers in Kentucky.

Lexington, Ky., April 14.—(Special.)—The news of the death of Prof. R. N. Roark, who was a great educator and a great teacher, was a great loss to the educational world, and his death was a great loss to the educational world.

Great Loss To State.

Prof. Roark was universally considered one of the ablest and best equipped teachers in Kentucky, and his death was a great loss to the educational world, and his death was a great loss to the educational world.

Laborers Were Unceasing.

His labors in his chosen cause were unceasing. In addition to his work as head of the Eastern Kentucky State Normal School, he was an active member of the Southern Educational Society and of the conference of education in the South.

An Ideal Teacher.

Prof. Roark was himself an ideal teacher. He was a man of great ability, and he was a man of great ability. He was a man of great ability, and he was a man of great ability.

REPUBLIC COMPANY TO BUILD BIG TUBE PLANT.

Pittsburg, April 14.—It was stated here today that the \$200,000 bond issue recently authorized by the Republic Iron and Steel Company would be used in the construction of a new plant to cost anywhere from \$100,000 to \$150,000, at Youngstown, O., where the company already has a large plant. The new plant, it is stated, will be for the manufacture of tubes, which have not hitherto been made by the Republic company.

TEN THOUSAND COULD NOT FIND CRAZY SNAKE.

But Col. Hoffman Believes the Old Chief Will Be Captured in Course of Time.

Kansas City, Mo., April 14.—"Ten thousand men could not find Crazy Snake in the region in which he is hiding," said Col. Roy Hoffman, of the Oklahoma State militia, who led the recent search for the Indian chief, and who arrived in Kansas City today.

"He is in a wild, sparsely settled region thirty miles wide and 100 miles long, extending to the Red River. It has been a successful hiding place for criminals for years. But it is only a question of time until we get him. William Hoffman, an old frontiersman and former marshal of Dodge City, is leading the search."

"Undoubtedly Crazy Snake was wounded in the leg in the fight at Hickory Ground before the militia took part."

HOUSE VOTES TO SUBMIT STATE-WIDE AMENDMENT.

Measure, However, Is Yet To Be Acted Upon By The Missouri Senate.

Jefferson City, Mo., April 14.—The lower branch of the Missouri Legislature today passed by a vote of 10 to 1 a resolution to submit to the voters of the State a constitutional amendment to the effect that the people shall elect a State-wide assembly to be known as the General Assembly.

VERDICT RETURNED FOR GOVERNMENT

CINCINNATI FIRM FOUND GUILTY OF ADDING SPIRITS TO CONTENTS OF BARRELS.

Cincinnati, April 14.—A jury in the United States District Court at noon today brought in a verdict for the Government against the Cincinnati firm of W. H. Corbin & Co., charged with adding spirits to the contents of barrels of whiskey.

The verdict was returned in a case in which the Government charged that the firm had added spirits to the contents of barrels of whiskey, and that the firm had added spirits to the contents of barrels of whiskey.

To Escape Tax.

Heretofore the army had been composed exclusively of Mohammedans, and Christians were compelled to pay a tax in lieu of military service. Many Armenians and other Christians recently announced their intention to join the army, and the Government accepted the offer.

SALE OF OLD ARMY GUNS DISCONTINUED.

GOVERNMENT ACTS ON COMPLAINT OF CHICAGO CHIEF OF POLICE.

Washington, April 14.—No more will cheap revolvers in neighboring countries be sold in this country. The sale of old army guns has been discontinued.

Tewfik Pasha's Record.

Tewfik Pasha has a respectable and rather colorful record. His sympathies are more pro-German than pro-British, and in this respect he is open to some suspicion among sincere supporters of the British cause. He is a man of great ability, and he is a man of great ability.

NEW CABINET INSTALLED.

Situation On the Surface At Constantinople Is Improved.

Constantinople, April 14.—After the stirring events of yesterday and the early part of today the successful formation of the Cabinet and the issue of an imperial proclamation, ordaining the observance of the Sabbath law and the preservation of the Constitution, served to bring about a comparatively peaceful situation here to-night. The members of the new Cabinet, of which Tewfik Pasha is the Grand Vizier, have been installed in office.

SECURES LIBERTY OF HIS AGED FATHER.

CHARLES BIDWELL ABANDONS HIS OWN APPEAL FOR NEW TRIAL.

Chicago, April 14.—Charles Bidwell's effort to save his aged father, Benson Bidwell, from prison as a result of his own appeal, was abandoned today in Judge Childs' court here to-day.

Confidence Returning.

Confidence is gradually returning, although the military situation with all the energies of the new Government for troops have returned to their barracks and the crowds in the Stamboul quarter have retired to their homes.

INSTALLED AS GRAND VIZIER

Tewfik Pasha Now at Helm in Constantinople.

City Continues in State of Great Excitement.

New Cabinet Meets To Consider the Situation.

SIGNIFICANCE OF OUTBREAK.

Constantinople, April 14.—(Special Cable.)—Tewfik Pasha was installed as Grand Vizier this afternoon and most of the troops returned to their barracks, satisfied that their demands had been granted. The city is, however, in a state of anarchy, tempered only by the meagerness and good nature of the troops. Mobs today destroyed the offices and contents of the offices of the Shuraumat and the Tamin, organs of the Committee of Union and Progress. The only object of deliberate violence was the clubhouse of Turkish women, at which a fusillade was fired. There were no casualties.

Not Reactionary.

The censorship has been partly removed, and it is possible now to transmit an account of the origin and significance of the revolt. The movement has not been reactionary in any but a religious sense. The revolutionists are even more ardent supporters of the Committee of Union and Progress than the Committee of Union and Progress itself. The instigators of the military uprising probably include some reactionaries, but the chief motives of the rebellion were of a religious nature. The men who have secured control of the Committee of Union and Progress since the revolution of last July were suspected of anti-Mohammedan tendencies, as well as an intention to establish a political dictatorship. The Government has announced its intention to enroll Christians as well as Moslem conscripts in the army.

To Escape Tax.

Heretofore the army had been composed exclusively of Mohammedans, and Christians were compelled to pay a tax in lieu of military service. Many Armenians and other Christians recently announced their intention to join the army, and the Government accepted the offer.

The Place For Homes New Albany, Ind. The Opportunity For Factories

When You Have Decided to Purchase a Home The Question Arises, Where Shall I Buy? The Answer Is:

Where your interests are carefully guarded and your home protected by wise regulations.

Where you can see the greatest prospect for development.

In a spot that is unsurpassed for natural beauty, and where every modern convenience is at hand.

Where there are good schools, churches, hospitals, etc.

New Albany's Many Advantages for Residences

It has the lowest tax rate of any city its size in the State—\$1.25 per \$100. Last year on this rate she paid her current obligations, including \$21,679.47 to the sinking fund, and had a surplus of \$9,821.04 December 31, 1908.

The low assessment of residences for taxation.

A most reliable and ample waterworks system, gravity pressure with a storage capacity of 25,000,000 gallons. This, with a well-equipped fire department, is largely responsible for the prevailing low rates of insurance.

Improved streets and effective sewerage—both sanitary and storm.

New Albany's death rate is far below the average of cities.

A most perfectly equipped electric and suburban railway system.

Cheap fuel, light and water.

Less living expenses, on account of the nearby small farms and gardens producing immense quantities of garden truck, small fruits, berries, dairy products, grain, poultry, etc.

A Beautiful City of 30,000 The City of Homes and Industries.

Ideal on account of her location and general influences.

Situated on the north bank of the Ohio River, at the foot of the falls, and therefore at the head of low water navigation.

Many prosperous manufacturing plants are in operation under the most favorable conditions.

As a place of residence New Albany offers all the comforts and advantages of a city free from congestion, yet affording her citizens the opportunities of enjoying the benefits and attractions of a metropolitan city, being situated directly across the river from Louisville.

Natural resources in the shape of shale from the "hills" west of the city are peculiarly adapted for brick making, and the product finds a ready market. On these same hills are grown the finest strawberries in the world, special trains, during the season, being necessary to transport them, the revenue from which is \$225,000 per year.

New Albany has a substantial jobbing trade, and her merchants, wholesale and retail, are enterprising, maintain attractive establishments with modern equipment, and carry a variety of stocks equal to the numerous demands.

The Commercial Club of New Albany is an organization perfectly familiar with the statistical detail of the city, and is aggressively identified with her welfare and development.

The banks and trust companies of the city are conservative, progressive and safe, and enjoy the confidence of the public generally. In justice to them, let it be said they met the recent financial stringency in a manner highly creditable to them and equally as satisfactory to their customers, having cashed all checks on presentation.

New Albany has two Telephone systems operating in the aggregate about 3,000 instruments, with ample connections through long distance lines to any part of the United States.

Two telegraph companies, the Western Union and the Postal Telegraph Cable, maintain offices here.

In every direction New Albany has fine roads and desirable building sites, all within short distances of electric lines.

New Albany's wealth and population are materially and substantially increasing. Nothing is so convincing as its records of post-office receipts and the increase of bank deposits herewith submitted:

	Postal Receipts	Per Cent. Increase 5 Years	Per Cent. Increase 10 Years	Bank Deposits	Per Cent. Increase
1898	\$17,020 49				
1903	22,629 35	24.8		1,521,410 04	
1908	29,653 09	31.5	74.2	\$2,337,391 73	\$815,981 69 53.6

New Albany's Many Advantages for Factories

It is admirably situated for shipping and transportation facilities, and is directly connected with the rest of the United States by the Baltimore and Ohio Southwestern, Monon, Pennsylvania and Southern Railway systems, each maintaining freight and passenger depots, while a Belt Line connects them all, in addition to the Big Four, Chesapeake and Ohio, Illinois Central, Louisville and Nashville and the Louisville, Henderson and St. Louis Railway.

Located on the Ohio River, above the flood stage, which offers navigation at nearly all periods of the year, her cheap freight rates are secure.

A number of ideal factory sites free of city taxation. Perfect fire protection, which insures low insurance rates.

Three hundred thousand people within a radius of five miles.

Low taxes and boiler fuel as low as \$1.00 per ton; cheap electrical power; an abundance of intelligent labor that may be secured from her immediate vicinity.

RICH HAUL

Made by Burglars in Small Town of Eckerty.

GET AWAY WITH \$2,000 AND TYPEWRITER.

POSSE FROM NEW ALBANY STARTS IN PURSUIT.

BLOODHOUNDS LEAD CHASE.

The Southern depot, also used as the office of the Adams Express Company, at Eckerty, was robbed Monday night and \$2,000 in cash, together with a typewriter, was taken. The circumstances were reported yesterday morning to the New Albany police and a posse of citizens, accompanied by bloodhounds, were engaged yesterday in an effort to discover a trace of the robbers.

Five suspicious-looking characters who had been around Eckerty are suspected of committing the robbery, but they have not yet been apprehended. It is said they came east from Eckerty over the road, but the New Albany officers were not notified of the burglary at the time, nor has any notification been given the company's agent in New Albany.

To Open Rifle Range.

Preparations are being made by Company C, First Indiana Infantry, New Albany, for opening the rifle range six miles northwest of New Albany, in Franklin township, preparatory to the annual practice, which has been held there for several years. These grounds are finely adapted for the purpose and some good scores have been made. Last year shooting matches were held at Fort Benjamin Harrison, near Indianapolis, by the State.

"TREMONT"—while possessing the merit of being conservative, it is nevertheless an out-of-the-ordinary style

troops. There also was a big shoot in Ohio that was participated in by the Government marksmen. A number of fine shots live in New Albany, among them being Capt. Harry Austin, of Company C, whose record was among the highest in the world.

Indiana Day.
This is Indiana Day at the Electrical and Industrial Exposition in Louisville, and Mayor Jacob Best, of New Albany, yesterday issued a proclamation declaring this a holiday. He requested the people of that city to celebrate the holiday by attending the exposition, where they will see and hear many things pertaining to their own city and State. Judge John M. Paris will deliver an address and short talks will be made by a number of representative citizens.

Trustees in Deadlock.
The township trustees of Orange county are in a deadlock at Paoli over the election of a county superintendent to succeed Prof. Claude Rankin, who has resigned to go West for the benefit of his wife's health. A total of 122 ballots have been cast, but the trustees are unable to agree in which event a Republican likely will be elected. This is the first time for many years that the Democrats of Orange county were in a position to elect the county superintendent.

Suit For Damages.
David Kayler has filed suit in the Harrison Circuit Court at Corydon against the New Albany and Paoli Turnpike Company by its attorneys, Ewing & Rouse, of New Albany, to recover \$2,000 damages which he alleges he sustained by driving his team into a ditch. He avers negligence on the part of the company. Kayler is a farmer living near Paducah, seventeen miles north of New Albany, and he was badly injured in the accident.

ITEMS OF INTEREST FROM NEW ALBANY.

—Miss Lily Bird is ill of appendicitis at her home on East Spring street.
—Dr. C. A. Hughes, of Arizona, will deliver an address on "The Indians of Arizona."

INSTALLED AS GRAND VIZIER

(Continued from First Page.)

which generally is considered as transitory and likely to lead eventually to the return of the former Grand Vizier, Kiamil Pasha, and the former War Minister, Nazim Pasha, two of the most popular men in Turkey.

The old Turkish conservative religious element appears to have obtained the upper hand for the present. The rule of the Young Turks committee has been suspended.

There was a curious scene in St. Sophia, the dethroned president of the Chamber, and several other men prominent in the party, are reported to have fled the country.

Anxiety Concerning Army.

Much anxiety is felt concerning the attitude of the second and third army corps at Adrianople and Saloniki. Should they remain faithful to the Committee of Union and Progress, the result must be civil war. According to some reports, which it is impossible to confirm, the Sultan, according to the expressed views of the committee, did offer the vicariate to Kiamil Pasha and the war portfolio to Nazim Pasha, but both declined.

There was a curious scene in St. Sophia on Tuesday afternoon. Along the sides were massed infantrymen in blue uniforms, together with many Saloniki chassiers in khaki. In the middle of the square, groups of soldiers were seated on the ground, Turkish fashion, in big circles. Moving from group to group were white turbaned hodjas, taking earnest notes. Very few civilians were visible and no doubtful looking characters.

At intervals the soldiers lined up and cheered the new arrivals, fresh bands of musicians. The Sultan, who had turned on the necessity of the revival of the sacred laws. The men also were loud in their denunciation of the war minister and were in favor of a change in the office of Grand Vizier. They demanded the appointment of Nazim Pasha to the post of Grand Vizier, and the Sultan, who was seen in the balcony, describing him as brave as a lion.

Presently from the side of the Sultan, Ahmed Moussa, a young man of about 20, of soft and womanly features, came forward. The procession crossed the square amid frantic cheers and formed up in a mass before the entrance of Parliament. They had come to support the demands of the soldiers. It appears that the Sheikh in Islam was sent there to ascertain the soldiers' wishes while the council of ministers was sitting in the palace. With his evidence that the Government considered their demands of vital importance added to the enthusiasm of the demonstration.

Another Dramatic Scene.

Another dramatic scene occurred after dark when at 10:30 Edith Pasha, the newly appointed Minister of War, went to St. Sophia at the Sultan's command to declare his majesty's wishes. The great square was filled with soldiers in a condition of tense excitement. With his well-known bravery, Edith Pasha faced the troops coolly and a dead silence ensued.

This message of imperial favor was accompanied with tumultuous cheers and the prolonged firing of salutes, which greatly alarmed the populace and resulted in some unintentional casualties.

Inquiry at official quarters to-night elicited the statement that news had been received that the second army corps had declared in favor of the new movement and that the Committee of Union and Progress at Adrianople had been dissolved. From Saloniki everything is reported quiet. It is rumored that Mahmud Mukhtar Pasha has fled.

More Trouble In Persia.

St. Petersburg, April 14.—Dispatches

received here say that a force of 150 Tatars-Turkmen cavalry, commanded by Russian officers, have occupied the populous Persian city of Meshed. Recently the Russian Consul at Meshed, which is a holy city of Northeastern Persia, with a population of 60,000, telegraphed for troops to strengthen the guard at the consulate and protect the lives and property of Russian and other whom disorders had broken out.

SULTAN AGAIN CONTROLS.

All Europe Looking Anxiously For Next Move In Turkey.

London, April 14.—The news from Constantinople to-day brings into clearer perspective the latest turn in Turkey's difficult path toward constitutionalism. A counter revolution, involving at least the temporary overthrow of the reform party and the partial triumph of the reaction, has been carried out with the same swift sudden dexterity which gave to "Young Turkey" the reins of power. The Sultan virtually has gained control of the helm of state and, although he still affirms his loyalty to the Constitution, all Europe looks anxiously for the next move of the khalidun of Near Eastern politics.

The situation closely resembles that of 1877, when the fall of Midhat Pasha left the Constitution to a lingering death. It remains to be seen whether the reaction is a factional fight between opposing sections of reformers or a real reactionary revolution. What may be doubted is that the Committee of Union and Progress, by its aggressive and dictatorial policy, has greatly endangered the life of the new Constitution and still less can be doubted that the reaction, if it comes, will be carried out with the same dexterity which gave to "Young Turkey" the reins of power.

The old struggle between reactionaries and reformers, which has been revived with the greatest bitterness, possibly involving a period of dangerous internal disorders. Already attempts to suppress the current concerning the possible reopening of the Balkan problem, that Bulgaria may seek to take advantage of the state of anarchy in Turkey, that the provincial branches of the Committee of Union and Progress, especially the Third Army Corps, in Macedonia, which is entirely composed of members of the committee, may make reprisals, creating new outbreaks, which could endanger the international situation.

Fears that Bulgaria may foment a rebellion in Macedonia are openly canvassed in St. Petersburg and in Vienna, although Sofia dispatches affirm that the Bulgarian Government has not the slightest intention of making trouble. The original side of the picture is that the old Sultan, who was a strong and able statesman and that the old Hamidian autocracy, will pursue a moderate policy and will not be revived with the old Kiamil Pasha to the office of Vizier.

GAVE MORSE MESSAGE WITH A PENKNIFE.

Hotel Clerk Locked In Vault Taps Combination To Woman Operator.

St. Louis, Mo., April 14.—S. E. Bonnell, clerk at the Planters Hotel, dropped into the vault at midnight to place valuables therein. Jack Shannon, the mail clerk, did not see him enter, closed the door and turned the bolt, imprisoning Bonnell, the only person who knew the vault's combination.

Bonnell pounded frantically against the vault doors until Miss Clara Benson, the hotel telegraph operator, recalled that Bonnell was a telegrapher. With a paper weight she rapped a Morse code message to him on the vault door. With

a penknife he tapped back a reply to her messages giving the vault combination, and was released.

EVELYN THAW IS NURSING A SNAKE.

New York, April 14.—Evelyn Nesbit Thaw, who has dropped almost completely from public view since the continued insanity of her husband, Harry K. Thaw, at Matteawan, is living quietly at 31 West Thirty-third street, New York. It was there that she was served last night with papers in a supplementary proceeding in the suit of a millionaire, who not a judgment against her last September for \$22. Soon after the judgment was obtained, Mrs. Thaw, but it was not until last night that she was successful.

The former chorus girl was found in her apartments playing with a snake, which she calmly caressed as she allowed it to crawl around her arm. She accepted the service with the comment that she would be on hand.

WASHINGTON NOTES.

President Taft has been invited to attend the annual song and music festival of the Federation of the Northeastern States, in New York city, between June 15 and 25.

The question of an enumeration of the unemployed by the census bureau formed the most important topic of consideration at yesterday's session of the executive committee of the American Federation of Labor. It was directed that the executive committee make every effort to have Congress adopt a provision in the pending census bill providing for this work.

A vacancy in the office of chaplain in the navy will be filled by the appointment of a minister of the Methodist Episcopal Church, and Secretary Meyer will ask the board of bishops soon to meet in Richmond to nominate a candidate.

The President has appointed Assistant Secretary of the Treasury Charles P. Morgan as representative of the Treasury Department on the Central Committee of the National Red Cross.

Secretary Meyer has promised to take leave of absence for several days to attend to the funeral of a friend, who died in Mississippi, Louisiana, Arkansas and Tennessee on the question of having the Mississippi River instead of to Horn Island to receive the silver service to be presented to that vessel by the people of that State on June 1.

Within about two weeks, Assistant Secretary Beekman Winthrop of the Navy Department, expects to inspect the Norfolk Navy Yard. Later he will inspect the various yards throughout the country.

The Persian Government has again been notified by the American Legation at Tehran that it would be held responsible for the safety of the lives and property of Americans in Persia.

Cumulative evidence which has reached Washington convinces the officials that had been permitted to remain in the vicinity of Venezuela, former President Castro would have made an effort to recoup his lost prestige in that country.

Rats have taken possession of the new Senate Office Building, which was occupied for the first time on March 4. Just before the first time on March 4. Just before the first time on March 4. Just before the first time on March 4.

TO-NIGHT AT Exposition

merce and Labor; Secretary Ballinger, of the Interior Department; chairman Knapp and Commissioner Prouty, of the Interstate Commerce Commission, and Representative Townsend, of Michigan. The idea of the conference was to form among the Departments of Justice, Commerce and Labor and Interstate Commerce Commission, a close co-ordination in the work of the three.

According to official dispatches to-day there is a renewal of alarm on the frontier of Salvador over the menacing movements of the Nicaraguan troops. It was reported that the decisive action taken by the United States and Mexico in sending war vessels to preserve the peace of Central America would stop further attempts of Zevalva to pursue any belated attitude toward his neighbors. Honduras evidently has shown but little disposition to insist upon the neutrality laws. Any important move, however, will be by decisive action by the United States and Mexico.

GOING TO SHARON TO LOOK AT MRS. BOYLE.

Mr. and Mrs. Dyer, of St. Louis, believe she may be their Miss-ling Housemaid.

St. Louis, April 14.—In the hope of discovering their missing housemaid "Clara," who disappeared September 30, 1907, on the same morning that \$5,000 worth of jewelry was stolen from a small cabinet at their home, 18 Lenox place, Mr. and Mrs. H. Chouteau Dyer have gone to Sharon, Pa., to look at Mrs. Helen Boyle, the White kidnapping suspect.

The girl who disappeared was a new employee, Mrs. Dyer knowing her only as "Clara." She was about 30 years old, had "blue-gray eyes with a cast in one of them," and was described as being of medium height, with a cast in one of them.

"RAILROADED" CONVICTS MAY BE RELEASED.

Minneapolis, Minn., April 14.—Two men, now declared innocent of any crime, who had been sentenced to life terms in the Minnesota penitentiary, may secure their freedom as a result of the newly-wakened conscience of a man who aided in tricking them into accepting the grave sentence.

R. L. Underhill and George Washington, negroes, are the victims who have spent the best time of their lives in a penitentiary, and who may now gain their liberty and re-enter a world strange to them since the gates closed on them in 1875.

It is said that the man who admits his guilt in railroading the men to the penitentiary has already appeared before the State Prison Board with a plea for their release, declaring that he has worried for thirty-four years over the unjust sentence.

SENORA CASTRO AND HER SISTER AT COLON.

Colon, April 14.—Ex-President Castro's wife and sister and the other members of the family are here, today, on the French Line steamer, Guadalupe. They did not disembark, and it is rumored that they will take passage for Venezuela. The Guadalupe will sail for Port Limon, Costa Rica, on Friday, when any and Castro's relatives recently landed. The ultimate destination of Senora Castro and family is not yet known, but it is thought likely they will go to Port Limon, if they do not decide upon returning to Europe.

STORE AND POST-OFFICE BLOWN UP BY BOMB.

Maysville, Ky., April 14.—The general store and post-office at Burtonville, Lewis county, was wrecked this morning by a bomb. The store belonged to W. C. Cooper, who was also postmaster. It is supposed to have been the work of a desperado. The explosion completely wrecked the interior of the building. The loss on stock will be heavy. Shovels will be used in an endeavor to catch the guilty one.

EBENEZER PRESBYTERY MEETS AT WINCHESTER.

Day Taken Up In Hearing Reports of Committee—Woman's Mission Society Holds Session.

Winchester, Ky., April 14.—(Special.)—The Ebenezer Presbyterian Church, in session at the public school building in this city, this morning, April 14, held its regular session. The Rev. J. C. Jones, of Louisville, preached the annual sermon and most of the day was devoted to routine work, hearing reports of committees. The Rev. J. H. Foraythe, of Pikeville, was chosen as moderator for the year 1909.

The Women's Presbyterian Mission Society is in session at the Washington-street Presbyterian church. Miss Rhoads Bayliff, corresponding secretary, and Mrs. J. B. Blackburn, treasurer, were both re-elected for the ensuing year. The principal address was made by Mrs. J. N. Irving, of Louisville. Both bodies probably complete their labors to-morrow.

JOHN M. MCCULLY TO BE BURIED HERE.

Death Comes As Result of Blood Poison—Father of Former Louisville Newspaper Man.

St. Louis, Mo., April 14.—(Special.)—The body of John M. McCully, formerly of St. Louis, who died to-day in Chicago, aged 75 years, will be buried at Louisville. McCully was a native of Pennsylvania. For a number of years he was purchasing agent of the Louisville and Nashville railroad, at Louisville. He moved to St. Louis in the early 50's, remaining here until 1868, when he came to Chicago.

He served during the Civil War with a Tennessee battery and was quoted as intimate with Jefferson Davis, president of the Confederacy. He became acquainted with Davis while the latter was a prisoner at Fort Monroe. He is survived by one son, John M. McCully, Jr., a local newspaper man.

PREPARE TO CHALLENGE RATES ON SOFT COAL.

Columbus, O., April 14.—Within the next ten days there will be a number of proceedings instituted before the Ohio State Railroad Commission and also before the Interstate Commerce Commission, challenging the legality of practically every rate on soft coal in Ohio and surrounding States. Coal men here and elsewhere have insisted that the rates on soft coal in Ohio are full of contradictions and discriminatory clauses, but heretofore they have borne with them. Agitation over the coal question has been going on in West Virginia has determined them on challenging all of the coal rates in the State.

AVENGES THE MURDER OF HIS FATHER.

Osyka, Miss., April 14.—H. H. Ramey, of Gillsburg, Miss., was shot and instantly killed by a negro last evening. Ramey's son avenged his father's death, killing the negro. Ramey went to the negro's house to collect an account and left his 19-year-old son in charge of the horse at the gate of the negro's home.

The son heard a shot and rushed in. He found his father lying in a pool of blood, the top of his head being shot off. The young man seized the negro and during the struggle three shots were fired, all piercing the negro's head.

CHARGED WITH OPERATING A MOONSHINE "STILL."

London, Ky., April 14.—(Special.)—Geo. Cook and Sam Owens, who were captured at Pigeon Roost, Clay county, Friday by Deputy Collector P. P. Elliott and Deputy United States Marshal G. C. Thompson and lodged in the London jail, were tried to-day before United States Commissioner Moore and held over for trial at the May term of the United States District Court on a charge of operating a moonshine still.

GIRLS COMMIT SUICIDE ON BOARD LINER.

Liverpool, April 14.—During the voyage of the Cunard liner Lucania, which sailed from New York April 1, two young women committed suicide by shooting. They were Margaret Clark, 24 years old, of Brooklyn, and Annie Miller, 22 years old, whose former residence is not known. The motive for the double suicide has not been ascertained and as the bodies were buried at sea there will be no inquest.

DR. STEEL RETURNS AFTER TWENTY YEARS.

The Rev. S. A. Steel, who twenty years ago was a pastor in Louisville as pastor of the old Walnut-street Methodist church, returned to his native city on Sunday night, April 14, at the Fourth Avenue Methodist church. Dr. Steel, it is said, has not lost his old-time enthusiasm for his work, and while he was here, made him such a great favorite.

LIEDERKRANZ'S SIXTY-FIRST ANNIVERSARY CELEBRATION.

The Louisville Liederkranz will give a concert in commemoration of the society's sixtieth anniversary. The concert will be given at the Grand Opera House, Wednesday, May 12, at 8 o'clock. The program will be sung by Mrs. W. N. Merrill, Mrs. W. J. Scholtz and Fred O. Noell. The choir will be the Liederkranz.

MEMPHIS MAN KILLS SUITOR OF HIS SISTER.

Memphis, Tenn., April 14.—As a result of differences of long standing and following an altercation aboard a street car on Sunday, a well-known young man, was shot and killed by C. Lowell Taylor. Taylor's attention to sister of the man killed, despite his protests, it is stated, was the immediate cause of the encounter.

"The Sins of Society" In Chicago.

Chicago, April 14.—(Special.)—Chicago made dramatic history to-night and McVicker's Theater recorded another triumph in the presentation of "The Sins of Society," a melodrama by the Drury Lane melodrama. The play, which is a masterpiece of the stage, is a play in which the ship "Becky Head" strikes on the rocks and goes down with two hundred souls on board standing at "attention" and singing the national anthem of England, and the audience that packed the theater to its utmost capacity, to the last, was so completely absorbed in the play that they forgot to breathe.

A scene of great beauty shows the rhododendron garden at Windsor, where the audience was so completely absorbed in the play that they forgot to breathe.

McConnell-Willis Wedding.

Nicholasville, Ky., April 14.—(Special.)—The marriage of Miss Melvina Irvin Willis and Mr. Henry Clay McConnell, Jr., took place at 7 o'clock this evening at the Wilmore Presbyterian church. The church was decorated for the occasion in white and pink, and the flowers formed an attractive

setting for the bridal party. Miss Grace Guernsey presided at the organ. Immediately before the ceremony Miss Genevieve Jossy, of Frankfort, sang "All for You" and "Because." The ceremony was performed by the Rev. W. L. Logan, pastor of the church. The bridesmaids were Dr. W. T. Willis, of Mt. Sterling; Messrs. S. L. McConnell, of Powell, and Messrs. Hughes Spurr, Oscar Lyne, of Lexington, and R. H. Guernsey, of Wilmore. Miss Hildebrand Willis, the bride's sister, was maid of honor, and Mr. John Avant McConnell, of Lexington, was best man.

The other attendants were Miss Bell McConnell, of Versailles, and Mr. Kirtley Cleveland, of Lexington. The bride wore a beautiful white satin and the bride veil. She carried a shower bouquet of lilies of the valley. The dual ceremony of the immediate families were entertained at dinner by Mr. and Mrs. L. H. Willis, the bride's parents.

MUFFLER FOR COWS.

[Kansas City Star.]

"Say! There's a cow in the vacant lot next to my house that wakes us up to surprise every morning. I want you to send an officer to put a stop to it. This time-worn complaint which comes over the telephone regularly to the Westport police station has at last inspired a remedy. The remedy issued from the brain of Cassius Larrabee, a resident at the Westport station, who is daily compelled to listen to the cow complaints. The invention was explained by Larrabee yesterday.

"You see, Maxin's silence for rifles won't work on a cow's mouth—the caliber of the mouth is too great," he explained. "So, I've been studying on an invention which will be merely a muffer. It's on the principle of an inverted horn. When you blow in the little end of the horn the sound is magnified as it comes out the big end. When the noise goes in the big end, however, through the muffer, it can scarcely be heard coming out the little end. That's the plan I have hit upon."

"The metal horn will be made so that the big end will fit snugly over the cow's mouth. When the herd is lowered for grazing purposes, the horn will be automatically lifted out of the way. But as the head goes up and the cow gives morning salute to a neighboring cow, the muffer will drop and cut off the salute—or rather absorb it in the numerous coils.

"In order not to cheat the cow out of the enjoyment which nature gave her, the little end of the horn will terminate in a front of her left ear, and the cow will be able to hear the muffering her duty to the other world."

"The patent I sure it will be patented, and placed on the market in the Westport district, where grassy lots are plentiful and there is a tendency to sleep late."

Bacon-Lillard Marriage.

Lawrenceburg, Ky., April 14.—(Special.)—The marriage of Mr. and Mrs. B. B. Bacon, a prominent young business man of Frankfort, took place in the home of the bride, at 10 o'clock this morning. The wedding was a very quiet affair, only a few friends and relatives of the contracting parties being present. The bride is the attractive daughter of Capt. C. M. Lillard, Jr., of this city, and the groom is the most charming member of the younger set.

Rummage Sale.

The Ladies' Aid Society of the Bardonia-road Presbyterian church will give a rummage sale at Preston and Jefferson streets to-day, to-morrow and Saturday.

Convention of Bible Schools.

Richmond, Ky., April 14.—(Special.)—The Tenth district convention of Bible Schools and C. W. B. S. of the Christian Church will convene in this city to-day, to-morrow and Saturday. The district are Garrard, Pulaski, Lincoln and Madison, and more than 100 delegates are expected to be in attendance.

One, at least, of the furnished rooms advertised to-day is probably YOUR IDEA OF A ONE-ROOM HOME.

Temperance Lecturer Coming.

Col. Charles H. Holt, of Chicago, a veteran temperance and prohibition agent, comes to Kentucky in the interest of the State-wide movement. He begins a series of meetings at Henderson to-day, and will open the State conference at Marcus Lindsey Memorial Methodist church, Louisville, Monday night, beginning at 7:45 o'clock.

Venerable Citizen Dies.

Lancaster, Ky., April 14.—(Special.)—Mr. George W. one of Lancaster's most venerable citizens, died at his home in this city. He had reached the ripe age of 80 and leaves one sister, Mrs. Martha Lusk.

All Run Down

Suffering From Nervousness, Insomnia and the After Effects of La Grippe.

James Sanatorium—Gentlemen: "I was suffering from a general run-down condition, and had gone from 125 pounds down to 110 pounds and was suffering from the after effects of La Grippe when I ordered some of your mixture for Nervousness, Insomnia and Indigestion.

"It is certainly a pleasure to write you that since taking it I am a new man and feel better. It improved and strengthened me very much, and I hope that others who are suffering from Nervousness, Insomnia and Indigestion and a general run-down condition will take your mixture, for I believe it is a fine medicine."

MARY E. TYNOLDS, Leesburg, Ga.

Chas. B. Jones, the eminent scientist, founder of the James Sanatorium, has made a wonderful discovery for the relief of nervousness and insomnia. It is a harmless blend of hops, lettuce, celery and other beneficial ingredients, which soothe the nerves and restore life, vitality, energy, vigor and force to those whom nervousness and insomnia are sapping of their strength and thereby wrecking their constitutions and shattering their mind. It is a medicine which positively contains no opiates of any kind, which is known as James' Mixture for Nervousness, Insomnia and Indigestion. It is a fair sample.

THE PIANOLA PIANO

With the Pianola Piano you have the OPTION of the two accepted ways of playing the piano.

For hand playing or for manual practice the Pianola Piano affords every advantage possessed by the best upright piano.

But, IN ADDITION, it provides the modern way of playing—with the Pianola roll. Why limit yourself to ONE method of playing, when you might have both?

Our Library of Pianola Music Embraces the Entire Range of Music From the Latest Popular Hits to All the Classics.

The Metrostyle.

This is an exclusive device with the Pianola and Pianola Piano. It has been called the "brains of the Pianola," for it shows even a novice how to play with the effect of a finished pianist.

Many a musician has declared that he would not give serious consideration to any Piano-Player without the Metrostyle.

Yet none of the other Piano-Players have anything which even pretends to take the place of this improvement.

The Themodist.

This is another great improvement ONLY TO BE HAD IN THE PIANOLA AND PIANOLA PIANO.

The Themodist brings out the theme or melody above the accompaniment, thus doing away with the mechanical effect so much criticised by musicians in other instruments.

A Piano-Player which only partially approaches the Pianola in its artistic results is certain to prove a disappointment to the purchaser.

The Pianola Piano Is Found Only In Our Warerooms.
Its Price Is From \$550 to \$1,050.

BLOODHOUNDS

Trail Alleged Night Riders Who Burn Church.

CULPRITS DESTROY NEW EDIFICE IN CALDWELL COUNTY.

CONGREGATION HAD JUST RE-CONSTRUCTED BUILDING.

MET THE SAME FATE BEFORE.

Hopkinsville, Ky., April 14.—[Special.]—Bloodhounds were taken from Hopkinsville to Caldwell county to-day to be used in tracking persons who last night burned the Good Spring Cumberland Presbyterian church, three miles from Fredonia. The good work of the dogs and claws obtained will, it is believed, lead to the arrest of the man who is suspected of being a ringleader among night riders in the Flat Rock vicinity.

Just Finished Reconstructing.

Exactly six months ago the Good Spring church was burned to the ground. Incendiarism was suspected, but no evidence was secured against any guilty parties. The members of the congregation saved timber, hauled logs and rebuilt their house of worship on the same site. It had been entirely reconstructed and was ready for the last coat of paint when the torch was applied last night. The church was a frame structure valued at \$1,000.

The Rev. R. A. Moore, the pastor, died only a few days ago.

Caused Indignation.

The fire occurred about 9 o'clock last night, and caused intense indignation in the community. The people here have been outspoken against night rider lawlessness, and their stand, they claim, promptly made up a liberal purse and telephoned to Hopkinsville for the two bloodhounds of V. H. McGraw and P. H. Denton. Officers Jones and Denton caught an early morning train and carried the dogs to the scene of the fire.

Bloodhounds Take Trail.

The bloodhounds immediately took a trail and followed it two and a half miles through fields where tracks of a man were repeatedly discovered. These tracks, the officers state, correspond with the footprints of a man under suspicion and to whose home the dogs led the officers. The purse was gladly paid over to the policeman by the church people and they returned to Hopkinsville to-night.

Their evidence will be submitted to the Caldwell county grand jury. Officers Jones and Denton say that a large number of plant beds have recently been sown with grass seed or sowed in the Good Spring neighborhood.

NIGHT RIDER CASES

On Docket At Present Session of Court At Murray.

Murray, Ky., April 14.—[Special.]—Judge Cook opened court this week with the largest crowd in attendance that has witnessed the opening of any term of court here in some time, for besides the usual interest in opening day of court a greater number of people were drawn here on account of the fact that the candidates for the judgeship in this, the third judicial district, first met in the courtroom of the county court. The speakers had a large and enthusiastic audience about equally divided.

This term of court promises to be full of interest, as there are a number of important cases on the docket, including all the night-rider cases, and several men

charged with murder will also be tried at this term.

PROPOSED RAILROAD

To Run From Dyersburg, Tenn., To Hickman.

Hickman, Ky., April 14.—[Special.]—S. G. Lott and E. Rice, of Dyersburg, Tenn., representing the Dyersburg Northern Railroad Company, have been in the city with a proposition to the citizens of Hickman to extend their road from Tiptonville, Tenn., to Hickman. The new road would come direct from Tiptonville, crossing the Fulton county line just east of No. 9 Lake and bearing a little to the north of a straight line to this city. They also proposed to go on through Hickman, connecting with the M. and O. in the neighborhood of Cayce, Ky. The committee appointed by Mayor Dillon to look into this matter is composed of W. A. Dodds, H. C. Helm and A. A. Paris.

HIGH WINDS CAUSE FIRE.

Residence of Chief of Police of Whitesburg Destroyed.

Whitesburg, Ky., April 14.—[Special.]—During the severe winds of last midnight the residence of Charlie Collins, chief of police here, caught fire, the family having been asleep. By heroic efforts, in which two-thirds of the population assisted, adjoining buildings were saved, otherwise much of the town would have been burned out.

FAVOR GOOD ROADS.

Bell County Fiscal Court Makes Appropriation of \$50.

Middlesboro, Ky., April 14.—[Special.]—An appropriation of \$50 has been made by the Bell County Fiscal Court for good roads. Bell county was the first to offer an appropriation for good roads of any

county in the State and so far has offered the largest appropriation, Logan county having offered an appropriation of \$25. The appropriation was offered to show that Bell county is heartily in sympathy with the efforts of the Kentucky Good Roads Association, in connection with the work for good roads in this State, as well as any other effort that has to do with securing good roads.

Coming Tobacco Market.

Glasgow, Ky., April 14.—[Special.]—If there has ever been a doubt in the minds of the people as to Glasgow being one of the coming tobacco markets the report just compiled as regards the 1908 and 1909 delivery districts such doubts, the records of the different warehouses show that 5,000,000 pounds of tobacco have already been sold. It is claimed that there is something like 1,500,000 pounds remaining, which when sold will pass through the Glasgow market.

Victim of Tuberculosis.

Leitchfield, Ky., April 14.—[Special.]—Thomas A. Cannon, of this place, died at his home this morning of tuberculosis. He was a member of the Leitchfield Mercantile Company, which is familiarly known in this section as the Big Seven. He was 38 years of age and never married. Interment will take place to-morrow at the Thomas cemetery.

Accepts Call To Florida.

Winchester, Ky., April 14.—[Special.]—The Rev. George W. Shepherd, of this city, has accepted a call to the pastoral charge of the Baptist church at Lakeside, Fla., and will leave in a few days for that place to reside. He was until recently pastor of the Baptist church at Richmond, but resigned to work as an evangelist.

Little Girl Burns To Death.

London, Ky., April 14.—The 4-year-old daughter of Thomas Delph was burned to death at Manchester. In company with two little brothers she was playing with some shavings, which they set on fire. Her clothing caught and the body was burned almost to a crisp.

Barn Burns Near Franklin.

Franklin, Ky., April 14.—The stock barn of J. J. Dyer, who lives about four and one-quarter miles from town, was burned at an early hour this morning. Six horses, one mule and all the provender were destroyed. The loss is total, as no insurance was carried.

Dies In Arizona.

Winchester, Ky., April 14.—[Special.]—Henry Smith, a well-known resident of Winchester, died in Tucson, Ariz. He was the son of J. H. Smith, a wealthy resident of Winchester, and the body will be brought back here for burial.

Victim of Paralysis.

Palmdale, Ky., April 14.—[Special.]—James E. Gifford, aged 77 years, died at his residence here yesterday morning after three strokes of paralysis had come upon him. He leaves two daughters and four sons and a widow.

Baptist Sunday-School Convention.

Elizabethtown, Ky., April 14.—[Special.]—The Baptist State Sunday-school convention convened in this city this evening. The Rev. J. G. Bew, D. D., preached the introductory sermon.

Weddings At Shepherdsville.

Shepherdsville, Ky., April 14.—[Special.]—J. M. Trimell and Della Hodges, Charles Langbecks and Cordelia Guess and Luther Metcalf and Annie Pymman were married here.

SEEDLESS APPLES.

(Husum, Wash., Special to Seattle Post-Intelligencer.) One of the freaks of the fruit world is a seedless apple tree owned by Arthur C. Chapman, of Goldendale. This tree in Chapman's yard has borne seedless apples every season for the past ten years. A striking peculiarity about the tree is that no blossoms appear, as on other trees. The apples are green in color, measure about two and a half inches in circumference. They are at no time close eating, but are at their best during the months of February and March. The only other trees of the kind known to be in existence are located in a small town in Missouri.

PARDON CASES

Gov. Willson Turns Down Many Applications.

GRANTS FREEDOM IN SOME FEW INSTANCES.

GETS HUMOROUS IN LOOKING OVER NEGRO'S PAPERS.

MAKES HIS REASONS BRIEF.

Frankfort, Ky., April 14.—[Special.]—In refusing to grant pardons, nowadays, the Governor is making his reasons brief and instead of dictating a long review of each case he simply writes his reasons on the wrapper containing the papers. He acted in a number of cases this afternoon. He refused to grant a pardon to Bud Harrison, convicted of voluntary manslaughter in Spencer county, and sentenced to the penitentiary for ten years. Richard Thompson, convicted of petit larceny and given a jail sentence of six months, also failed to get a pardon. He was sentenced in Boyd county and the Governor says no good reason for a pardon is shown.

Not Good Reason.

Because no ground at all is shown for a pardon, Gov. Willson refused clemency in the case of Charles Burham, sent to the penitentiary for five years for horse stealing from Clark county. The Governor refused to pardon Jack Stanley, sent to the penitentiary for ten years for manslaughter. The Governor restored to citizenship Lee Gay, who served one year in the penitentiary on a charge of grand larceny, being sent from Breathitt county.

More Refusals.

More refusals in pardon applications were given out late this afternoon by Gov. Willson. He refused to pardon George Rickerson and Grover Griffin, sent from Louisville for robbery, and given two years in the penitentiary. They robbed a street car in Louisville and the Governor says there is no good reason for a pardon.

He refused to grant a remission of the fine imposed upon one B. F. Evans, convicted in Pulaski county of selling liquor without a license and says that "it is running a blind tiger across the State line."

He refused to pardon Walter Stockton, sent to the penitentiary for five years from Mason county on a charge of robbery. He says there is nothing to show that the verdict was too severe.

Although the woman, a negro, who was attacked, is of bad character and has since been sent to the reform school, Edward Wilson, convicted of detaining a woman, does not get a pardon. The Governor says it is not a case where a pardon is a remedy and he refused to grant it. Wilson was sent to the penitentiary for three years from Fayette county on a charge of detaining a woman. Gov. Willson refused to grant a pardon to John Walker, sent to the penitentiary for twenty-one years, in 1903, from Louisville, on conviction of manslaughter. He killed a woman, but the papers do not show who the woman was. The Governor says that some of his best neighbors think that five years is enough punishment for the crime. The man is a negro and in writing the case the friend of Gov. Willson said: "John is a good boy," and Gov. Willson remarked when he refused the application, "Yes, good for twenty-one years."

George Hartford Pardoned.

Gov. Willson this afternoon pardoned George Hartford, sent to the penitentiary for eight years from Union county, on conviction as accessory to murder. Hiram Baker was killed by Paris Shotwell in Corbin several years ago. Shotwell was convicted and Hartford was also convicted as an accessory, being found guilty of manslaughter. On the day of the killing Hartford and Shotwell, who had been sworn in as special police, attempted to arrest Baker, and there was trouble. Baker was killed and it was charged that Hartford fired into the home of Hartford. Gov. Willson yesterday pardoned Shotwell and now he pardons George Hartford, as he says there was no evidence that Hartford fired a shot or did anything to aid in the killing of Baker.

Pardon In Unusual Case.

Gov. Willson to-day granted a pardon in a rather unusual case. Charles Carroll, a white man, was convicted of cutting the ears of a negro and sentenced to the penitentiary for four years. This, too, in spite of the fact that the negro was disgraced by the act. Willson says he was greatly surprised to find the evidence sustained by the jury. He says that it is remarkable for a white man to be convicted of cutting the ears of a negro. He had attacked the white man. After investigating and finding that the statement of the negro was true, the Governor granted a pardon. He says that he has no evidence that Carroll fired a shot or did anything to aid in the killing of Baker.

DOUBLE HANGING

TAKES PLACE IN JAIL YARD AT SUNRISE TO-MORROW.

Negroes Sentenced To Death To Be Launched Into Eternity From Same Scaffold.

Less than twenty-four hours of life remain for William Carter and William Green, colored, who will be launched into eternity to-morrow morning at sunrise. They will be hanged from the same scaffold in the jail yard.

The new scaffold at the jail has been constructed according to the most modern ideas. Both traps will be sprung at the same time by a lever, the old method of one man at a time being abandoned. Up to a late hour yesterday the traps had not been tested, but before the execution a thorough examination will be made, including a test with weights, in order to eliminate all possible chance of accident.

Yesterday was a busy day for the condemned men for all their last relations were on hand to talk to them for the last time. During the interviews close watch was kept over the prisoners, but the officers say that no attempt has been made to bribe or threaten them. Those that have been visiting them to disobey the rules of the jail. Both negroes have model prisoners. Jailer Monroe has provided them with almost everything to eat and has attempted to make their last hours on earth as pleasant as possible.

The chief spiritual adviser of the two negroes is the Rev. William Bruce, of the Hope Rescue Mission, who is chaplain of the jail and the workhouse. He has been a regular visitor to the men during the last month. Both men have declared that they are not afraid to die. Carter was recently baptized by the Rev. W. N. Johnson, colored.

One hundred tickets to the hanging have been given out by the Sheriff, the law allowing fifty for each person executed. Many applications have been made for tickets.

Green is 28 years old and was given the death sentence for the killing of William Snowden, also colored, at Newton and Walnut streets June 27, 1907. Carter, 25 years old, is to die for killing William Walker, who was a foreman at the Menzel box factory.

WILL PETITION COUNCIL FOR BETTER SERVICE.

At a special meeting of the South-eastern Improvement Club, held at the office of Dr. W. B. Gossett, 400 East Oak street, last night, a committee composed of Charles Johanneker, John S. Strassel, J. V. Spantner, Dr. C. G. Forsee and Edward Miller was appointed to go before the General Council Friday night and present a petition asking that body to require the Louisville Railway Company to improve the service on the Preston-street car line. They want a five-minute line.

First on the List

Faust Spaghetti is not a "last resort" food. Once you've tried it you'll say to the grocerman "First of all, FAUST SPAGHETTI," instead of tacking it on at the end as a mere afterthought. First on the list because you know you can prepare it in endless different ways. First on the list because the family never tires of it. First on the list because it's so nourishing and because it costs so very little.

FAUST BRAND SPAGHETTI

is a wholesome American product that reaches you fresh and clean in sealed packages. Try the recipe shown here and see how good it is. See how its wonderful cooking usefulness relieves you of the vexatious question "what to have for dinner?"—how it keeps up your table-reputation and down the cost.

Try it to-day. Sold by nearly all grocers—only five and ten cent a package.

ATTILLA COX

Retires As President of Columbia Trust Co.

L. W. BOTTS TO BE NAMED AS SUCCESSOR.

A. Y. FORD BECOMES ACTIVE VICE PRESIDENT.

DIRECTORS TO MEET TO-DAY.

Following the annual meeting of the board of directors of the Columbia Trust Company to-day, one of the strongest financial institutions in the city, it is expected that formal announcement will be made that L. W. Botts, vice president, has been chosen to succeed Attilla Cox as president of the company. It is understood that Mr. Cox, on account of poor health, has asked to be relieved of some of the executive duties of the company, although his associates have urged him to retain the office he is about to relinquish. It is said, however, that Mr. Cox will remain with the company as chairman of the board of directors, an office recently created.

In Louisville there is perhaps no better posted authority on matters pertaining to banking and finance than is Attilla Cox. He has devoted practically all of his life to the banking business and the announcement that he is to give up the presidency of the company he has been with ever since its organization will be received with some surprise.

As president of the institution Mr. Cox has labored arduously. He has presided over the destinies of the Columbia Trust Company in a manner befitting the high office conferred upon him. His skill as a financier is acknowledged by all those who have come in personal contact with him.

The position of chairman of the board of directors was created by the directors specially for Mr. Cox, so that he can be retained in the executive management of the company, and the details of executive work. The condition of his health has demanded that some such relief be afforded him.

New Head of Company.

L. W. Botts, who by virtue of the retirement of Mr. Cox becomes president of the institution, came here from Shelby county in 1888 as a clerk for Mr. Cox. He has since then followed a steady upward course. When the trust company was organized in 1888 he was advanced to second trust officer, then secretary, and five years ago was promoted to the office of active vice president. During the whole of his career with the company it is said that he has never displayed rash judgment. He has made an enviable reputation as a trust officer of marked ability and is well fitted to discharge the duties of the office of president.

The retirement of Mr. Cox from the office he has held so long and the promotion of Mr. Botts will bring about considerable changes in the management of the company. It was announced yesterday that A. Y. Ford, who went with the company about three years ago and conferred upon L. M. Bender, Mr. Bender has been secretary of the company for many years and he will assume the duties of secretary of the company.

Prior to three years ago, when he was made treasurer of the Columbia Trust Company, Mr. Ford, who now becomes vice president, was engaged in newspaper work. He has made a record with the trust company in the short time he has been treasurer.

Mr. Bender Moved Up.

Mr. Bender, who will assume charge of the office to be vacated by Mr. Ford, is a native Kentuckian. He came here from Hartford about ten years ago to fill a clerical position with the Columbia Trust Company. In a minor capacity he served the company with credit for two years, when he was advanced to the office of secretary. This was eight years ago and Mr. Bender has held the office ever since. The handsome increase in salary which goes with the office just combined with the office he has held for so long is well deserved.

Aside from matters of routine importance the stockholders of the Columbia Trust Company at their annual meeting yesterday elected a board of directors as follows:

Attilla Cox, chairman; Harry Wellsinger, L. W. Botts, John W. Green, Andrew Cowan, H. H. Little, R. W. Knott, A. Y. Ford, John L. Dunlap, J. D. Stewart, John L. Helm, S. A. Culbertson, Charles T. Ballard, Dr. Charles J. Groves and Attilla Cox, Jr.

The meeting of this board will be held some time this morning.

CONFEDERATE VETERAN ENDS LIFE IN BATHTUB

COL. MOSES GIBSON HAD LONG BEEN SUFFERER.

SERVED THROUGHOUT WAR IN JACKSON'S BRIGADE.

FUNERAL THIS AFTERNOON.

Col. Moses Gibson, who was 72 years of age, a Confederate veteran, and for many years a resident of Louisville, was found dead in a bathtub at his boarding house, 707 West Chestnut street, shortly before 7 o'clock yesterday morning. When found by the landlady, Mrs. L. B. Simms, he was lying in a pool of blood. He had been in the bathtub for some time, and his head was bent between his knees, and the water was still running into the well. A few minutes later, Col. Gibson's head was found floating in the water. An attempt was made to resuscitate Col. Gibson, but life was extinct. The coroner, Dr. Charles J. Groves, was called, and pronounced death due to suicide.

A cut on the left wrist and a bloody wound found on the dresser in his room on the third floor indicated a previous attempt to take his life. Col. Gibson had been in ill health for some time, suffering from heart trouble. According to the landlady, Mrs. Simms, he had been despondent for several days. Mrs. Simms stated that he had been at the boarding house but a week. Col. Gibson was well read and frequently contributed articles to the Louisville Courier-Journal. He was born in Virginia and came to this city shortly after the war. At the outbreak of the Civil War he joined the 1st Kentucky Cavalry, and served throughout the war. He was engaged in the coal business. Later he was connected with the coal business of Joseph Thompson & Co. until it went out of business. Col. Gibson had been an inmate of the Cave Hill Home at Cave Hill, Ky., and also in Virginia. Until last December he was a clerk at the Fifth Avenue Hotel for a time. It had been planned to place Col. Gibson in the Confederate Home in a short time. No near relatives survive.

The body was removed to the undertaking establishment of L. D. Pearson & Son, Third avenue and Chestnut street, where the funeral services will be held at 3 o'clock this afternoon. All Confederates are requested to attend. The burial will be in the Confederate lot in Cave Hill cemetery. The following have been selected as pallbearers: Col. William A. Milton, Capt. John H. Leathers, W. Thompson, Thomas D. Osborne, Capt. Samuel H. Buchanan and Capt. John W. Green.

Committees to Oppose Increase in Taxation.

Named by Board of Trade Directors Yesterday—Delegates to Second Annual Peace Congress.

At the regular meeting of the directors of the Louisville Board of Trade two important committees were appointed, one to meet against a proposed increase in the assessment for Louisville and Jefferson county, and the other to confer with the State Tax Revision Commission.

Every effort will be made to convince the board that a further advance in the assessment would be impossible on the people of Louisville and Jefferson county. The committee is composed of the following members of the Board of Trade:

Hardy Burton, chairman; R. A. Robinson, William Thalheimer, Fred W. Keiser and Charles F. Hulshel.

The committee appointed to confer with the State Tax Commission is made up as follows:

John W. Barr, C. C. Mengel, Charles E. Ballard, Charles E. Cantner, C. F. Hulshel, Bernard Bernheim, George C. Norton and Edward F. Traub.

The directors also voted in favor of a motion to send delegates representing Louisville and the Board of Trade to the second annual Peace Congress to be held May 3, 4 and 5. An invitation was recently received by the Board of Trade from the delegates to this congress.

The following were appointed to represent the Board of Trade at the meeting: Frank C. Stannacher, president; F. N. Hartwell, Marion E. Taylor, Logan C. Murray, Charles E. Cantner, C. C. Mengel, Charles D. Gates, Theodore Ahrens and Alfred Brandeis.

Fire At Distillery Plant.

A small fire broke out at the Sunny Brook distillery at 3 o'clock yesterday afternoon, but the employees quickly succeeded in extinguishing the blaze before the fire department arrived. The fire was started by a shaft in the mill room becoming overheated and igniting a wood casing.

Old Directors Re-elected.

New York, April 14.—At the annual meeting of the New York Life Insurance Company for the election of directors, held here to-day, the twenty-four retiring directors named in the ticket in nomination were re-elected.

S.S.S. NATURE'S TONIC

The very great majority of persons need a tonic in the Spring or early Summer. The system undergoes a change at this season and the entire physical machinery is disturbed. The general bodily weakness, a tired, worn-out feeling, sickle appetite, poor digestion, a half sick feeling and a general run-down condition of the system, show that the blood is weak or anemic, and a blood purifying tonic is needed to build up the deranged system and enrich the blood. The use of S.S.S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the long, hot Summer. Many people have put off using a tonic until the system is so weakened and depleted it could not successfully throw off disease germs, and have paid for the neglect with a spell of fever, malaria or some other debilitating sickness. S.S.S. is Nature's ideal tonic. It is a composition of the extracts and juices of roots, herbs and barks which science and experience have proven are best fitted for a tonic to the human system. It contains no minerals of any kind and is therefore perfectly safe for persons of any age. S.S.S. tones up the stomach and digestion, rids the system of that tired, worn-out feeling, and imparts vigor and strength to every part of the body. It purifies and enriches the blood, stimulates the secreting and excreting members to better action, quiets the overstrained nerves, and makes one feel better in every way.

AN AUSPICIOUS OPENING.

FACTS ABOUT THE OPENING GAME.

WINNER—Louisville.
SCORE—6 to 1.
ATTENDANCE—7,000.
HOW WON—Colonels hit.
FEATURES—Halla's pitching and work of Landreth and Quinlan.
NEW PLAYERS—All showed up well.
FIRST BALL—Pitched by Mayor Grinstead.

A FAIR-HAired, tall, athletic-looking young man, toiled with the baseball team known as the Columbus Senators at Eclipse Park yesterday afternoon. While thousands of his faithful admirers sat in grand bleachers and howled because of his performance he played with his sturdy opponents like a window-dresser uses putty, like a sculptor molds his models of clay, like a cat tantalizes a mouse. Up in the stand a thin, dark girl, her eyes flashing with excitement, prayed for the success of him who stood in the center of the diamond.

The tall young man was pitcher Jack Halla and the dark girl in the stand was his wife. For six innings she had seen her husband perform a feat that has never been surpassed on the diamond. The heavy hitters of the Columbus team had gone down before Halla's curves like timothy before a scythe. During these six innings not a Senator had reached first base. There had been no hits, no bases on balls, no errors of judgment. Halla's work had been perfect. Then the girl-wife in the stand leaned forward, her eyes ablaze, because it began to dawn upon her that here was Halla's chance to tie the wonderful record of "Cy" Young and thereby gain for himself the undying glory which goes to the twirler who pitches a no-hit, no-run, no-error game, no-player-reaching-first game.

Then, with little O'Rourke, the Columbus shortstop at bat, came the shattering of hopes. But not a spectator in stands or bleachers but who prayed as Halla and his wife were praying. Little O'Rourke is only a boy, and nine out of ten of the old-timers at the park had seen his daddy perform on the diamond and receive thousands to the highest pitch of excitement by his splendid work with the ball. Halla served the youngster a fast ball, waist-high, and the boy swung at it mightily. It sailed on a line directly over second base and bounded into Dunleavy's territory, and when the white sphere touched the glove of Quinlan O'Rourke had slid into second in a cloud of dust.

The young woman in the stand settled back in her chair with a sigh. To her O'Rourke's hit was almost a calamity. This was the final to be drawn to the situation as has been seen on a Louisville diamond in a long time. Had Halla succeeded in his brave effort his name would have been put in large type in the history of the national game, and next year, maybe, there might have been a better job for him.

Splendid Ball Game.

As a ball game the contest was all that could have possibly been desired, and the opening was one of the most auspicious in the history of the Louisville club. Thanks to Halla's remarkable pitching, the Colonels seemed to outclass the Senators, and while a different story may be told to-day, the memory of yesterday's game was in the minds of the fans who saw it throughout the season. The local team played perfectly. There was nothing lacking in hitting, fielding, base-running or team work. Every man seemed to know exactly what to do and he did that. The new players on the team, as seen for the first time by many of the fans, created the most favorable sort of an impression. While Tate and Delehanthy did not secure any hits, their work was frequently applauded. The most pleasing feature, however, was Landreth's return to form. He secured two hits out of four times up, and one of these was a drive into the crowd in right field which would have been good for a home run but for the rule which allowed a batsman only two bases on a ball hit into this throng. Landreth made several splendid catches, covering much territory. The form of the game was exceedingly pleasant to the local lovers of the game, who believed that heavy-hitting right-fielders were not in condition. Dunleavy also played well, securing two safe drives. He is as fast as a dasher.

Quinlan the Star.

The star work of the game was done by Larry Quinlan. All over the association circuit he is known as a hard-luck hitter. He meets the ball squarely, but it usually goes straight at some fielder. Yesterday, however, Quinlan seemed to have broken his run of bad luck. Out of three times he hit but he laced out three beautiful singles and the other time that he faced Taylor, which did not count as a time at bat, he got in the way of a pitched ball and took his base.

The opening of the championship season was attended with the usual ceremonies. The Columbus players marched to the plate, headed by a band, shortly after 5 o'clock. At 5:30 o'clock the Louisville players, twenty-one in number, and preceded by a brass band, marched company-front from the clubhouse to the plate. When the fans cheered, Mayor Grinstead pitched the first ball across the plate, there was candy for Dunleavy and a bat for Landreth.

How the Game Was Won.

Halla's masterly pitching, backed by flawless support, with opportune hitting in the first and sixth innings, gave the Colonels the victory. The southern twirler baffled the opposing batsmen until the beginning of the seventh round. They failed to get anything that looked like a safe hit. Clymer's men only rapped the ball twelve times to the outfield. Seven of the hits were singles and six were safeties. The remainder of the drives were handled by the local infielders. Halla only walked two men and struck out one. This of itself shows what he did at the slab and why the Colonels downed the visitors.

Every Colonel who took part in yesterday's game was a champion. Halla performed with machine-like precision. If any of the locals made a mistake at the plate or in the field, the spectators could detect it. Manager Peitz, judging from the article of ball furnished by the visitors, ought to be able to keep up the fast work. The nine players who participated in the battle yesterday played rings around the Senators. At no period of the game did the visitors have a look-in. The Colonels practically walked away from the Clymerites. With the exception of Peitz, Tate and Delehanthy all of the local players secured one or more safe hits. All of the men played baseball up to the nub.

Taylor Not a Puzzle.

The Senators dropped the game because Halla was the chief stumbling block. Clymer's men tried their hardest to fathom the local twirler's offerings, but they failed to connect with any degree of certainty. The erratic just escaped being whitewashed. The loss of the game was due to the fact that the team did not

OFFICIALS PLEASED WITH THE COLONELS.

PRESIDENT BARKER and General Manager Chivington were delighted with the outcome of yesterday's engagement. The officials declared that they looked for a victory by the locals. "I'm much pleased with the result of the game," said Chivington, "and also the big attendance, considering the weather. I still maintain that the Colonels under the guidance of Peitz will be prominent factors in the 1909 American Association race."

It was the same old story. Without batting a team cannot expect to win. Jack Taylor did not prove to be a puzzle to the local batsmen. His teammates lost because the Colonels crushed his offerings in timely fashion. The locals out-guessed Taylor, as his delivery was touched up for one or more safe hits on every inning except the third, seventh and eighth. Taylor, despite the fact that his team lost, also pitched good ball. He had good control of the sphere, but his work amounted to little on account of the fact that the men behind him were unable to hit.

Details of the Game.

O'Rourke, the first man to bat for the Senators, was an easy out from Woodruff to Tate. Odwell fled to Landreth. For safety grounded to Tate and was out unassisted. As Dunleavy stepped to the plate the first time up he was presented with a box of candy. He responded by making the ball to left field which netted him two bases. On Woodruff's next sacrifice Taylor to Miller. "Skaters" slipped the highest order, and they were frequently applauded. The most pleasing feature, however, was Landreth's return to form. He secured two hits out of four times up, and one of these was a drive into the crowd in right field which would have been good for a home run but for the rule which allowed a batsman only two bases on a ball hit into this throng. Landreth made several splendid catches, covering much territory. The form of the game was exceedingly pleasant to the local lovers of the game, who believed that heavy-hitting right-fielders were not in condition. Dunleavy also played well, securing two safe drives. He is as fast as a dasher.

CHAT OF THE GAME.

The second game of the present series between the Colonels and Senators will be played this afternoon. The contest will be called at 3:30 o'clock.

Hogg or Selby will be at the slab for the locals to-day. Upp or Geyer will officiate at the mound for the Senators.

The weather man promises to be more generous to-day than he was yesterday.

Mayor Grinstead put the ball right through the groove and Empire King called a strike on O'Rourke.

Halla's splendid twirling and bunting of safe hits by the Colonels caused the defeat of the Columbus Senators.

In spite of the cool weather a big crowd was on hand to welcome and cheer the new 1909 Colonels under the new leader, Helne Peitz.

Bill Friel, the visiting third baseman, said he hoped that he would not be required before he could don the new uniforms.

Empire King announced before the game yesterday that a ball hit into the right-field crowd would entitle the batter to only two bases.

Although a big crowd attended the opening yesterday, many of the fans, particularly the women, remained away for fear of contracting pneumonia. Had the weather been better the park would have been taxed to its full capacity.

The players on both sides indulged in snappy practice before the game.

The members of the teams were loudly cheered when they marched across the field before their preliminary practice.

The Colonels looked fine in their tinge of white with black belt, red cap and stock-ings.

General Manager Chivington was congratulated by many of the fans on account of the better the park would have been taxed to its full capacity.

Bill Clymer, manager of the Columbus Senators, is as popular as ever with the local fans. He was awarded the diamond hand when he walked across the plate to meet Mayor Grinstead and President Barker at the local players' bench.

Larry Quinlan played well yesterday. His batting was easily a feature. His percentage was 1.00. He was up to the slab four times and made three hits and was hit by a pitched ball. One of his safe drives sent two runners across the plate and he scored once. Larry also stole a base.

Jack Halla, by his performance at the slab yesterday, showed that he was in midsummer form. His pitching was splendid. Halla's offerings were unhit until the seventh inning. All of the players and fans inside the park were hoping that the local twirler would shut out the Senators without a safe hit.

Halla had splendid control. The two bases on balls he issued were in the eighth round.

Miller, the new first baseman of the Senators, gave promise of developing into a classy player.

The overflow bleachers were compelled to stand behind the ropes in right field.

The Senators, despite their lack of training, played nice ball. They failed to walk on the ball safely because they could not locate Halla's offering.

Indianapolis 4, Toledo 2.

Indianapolis, April 14.—Before one of the largest crowds which ever assembled in Washington Park, Indianapolis, the champions of the American Association, defeated Toledo in the opening game here to-day. Indianapolis secured a comfortable lead in the first two innings, and, with the splendid pitching of Glaze, the visitors had little show of winning. Mayor Charles A. Bookwala, threw the first ball across the plate. The big pendant won by the local team last year was raised before the game started. J. D. O'Brien, president of the association, occupied one of the boxes.

Senators Finally Score.

The Senators broke into the hit and run column in the seventh. O'Rourke made the initial safe drive for his side. It was a two-bagger to right center. The visiting short stop failed when Odwell followed with a single to left. The next three men perished. The local players were disposed of in one, two, three order on infield drives. Tate, Landreth and Olson batted in this round.

Clymer's men in the eighth gave the local fans a scare, as it looked like they were going to chalk up several runs. However, fast fielding and Friel's interference prevented any scoring. Two men were given their bases on balls and Wagner sacrificed and Friel singled to center, but the Senators could not send any men over the plate. Although Quinlan was hit by a pitched ball and pilfered second the following three men were unsuccessful in their attempts to send him around the circuit. Taylor in this round made a beautiful catch of a foul ball from Helne Peitz's bat after Catcher James had lost.

The ninth failed to yield the visitors any runs despite the fact that after Odwell and Congleton had scored, James and Kruger each bungled to center. Miller's long fly to right was squashed by Landreth. The score:

New York.—In the forenoon the market showed a continuation of the reactionary tendency in evidence yesterday, but in the last hour or two of trading prices grew stronger. The market for cotton futures was still firm for the day was firm. Money continues very easy, and this, of course, is the backbone of the market. The market for wheat was satisfactory in that the Turkish situation might lead to awkward European complications, and the market for sugar was firm, but the possibility of difficulties. While, perhaps, the cream of the general rise may be over, it looks as if the market for the present would continue to advance. The market for gold operations in specialties.—First & Flagg to John W. & D. S. Green.

Railroad bonds moderate.

There was a notable lack of animation in the stock market to-day, reaching a stage resembling torpidity at times. A large proportion of the new American issues for the period are supposed to originate within the walls of the Stock Exchange amongst the profes-

cultivates about a half million acres and Mexico 350,000 acres. It is impossible to say how much China has under this crop. The United

states produce about two-thirds of the world's supply. India and China are the largest producers, approximately and Egypt about 8 per cent. China is estimated as yielding 2.8 per cent. of the annual supply, and the United States, Japan, and other countries probably not more than 3 per cent. The world's crop at present prices is roughly estimated at the value of \$69,000,000.

proportions is not inappreciable even to such a strictly local influence as the weather, which has been the cause of a considerable price advance to-day. To that calculation was attributed a share in the reaction that was shown in the day's dealings.

It is noticeable that increasing attention is given by the stock market operators to grain crop conditions. In view of the admission of the fact that the weather has been so far from extra, interest centers in the preparations for the spring wheat crop. The advice from the marketing and export centers was to the effect that the conditions prevailing were not to the indignant weather. The sensitive condition of the wheat market in its highly speculative condition is not to be wondered at, considering that market, and by reaction in the stock market.

Some of the selling of stocks to-day was accompanied by professions of growing anxiety over the year's crop output, upon which much admittedly depends for the continuance of the present boom. It is not to be wondered at, therefore, that the long interest in stocks in the course of the present rise adds to the vulnerability of the market to the slightest suggestion of unfavorable opportunities to attack the bull position and to attempt to force speculative liquidation by the operators. The result is that the operators have been attempting but with moderately successful to-day in spite of the vantage point of the lower price level already established in yesterday's trading.

Some slight uneasiness in the Bowling dealings was due to fears of the effect of the weather on the wheat crop. The reaction may come from local sources in anticipation of the coming fall, but when it appeared that

There was no indication early in the session that the market would be so much more record-breaking performance of the last two weeks. On the contrary, the climax to the sensational upturn in prices seemed to have been reached. The market was down 10¢ on July 1, a decline of 4¢ (114¢ at Liverpool), the market here was weak, with prices unchanged to 46¢. The quotations on May were at \$12.67 (21¢) and on July 11.15% (11¢). Several of the leading firms in the May delivery bought freely early in the month, but the market was not buying by shorts. This resulted in May advancing to \$12.25 and July to \$11.71. Much of the advance in May was due to the favorable crop reports from Missouri. Continued upward demand for the cash grain at advancing prices was responsible to some extent for the fresh buying in May. On July 1, the market was a day, a very nervous feeling was manifested, with the May delivery showing the greatest advance, 10¢ to \$12.35. The market was not falling off in primary receipts and by statistics which showed a marked decline in exports. The market was strong during March, and the sentiment in the pit became bullish, and it held in the final hour, and shortly before the close May rose to \$12.29, while July advanced to \$11.71. The market was strong in the top of pre-fitting-back, but the noise was excited and strong, with May at \$12.25 and July at \$11.71.

Advances at 1630 marked trading in the corn market. The May delivery displayed the greatest strength owing to active demand by the export trade. The market was an improved demand from shippers, were the

New York Dry Goods.—The New York, April 14.—Although there was some activity in the market, trading dry goods was generally flat. The market for the season has been characterized by the fact that the textile makers, growing out of changed conditions, have been unable to produce the same quantity of goods as in the past. The cotton goods and yarns are strong, but still the market is not very active. The woolen goods are strong, and the woolens are strong in the cotton and the unwillingness of buyers to lift prices in the woolen market. Staple houses are being taken in small lots on duplicate orders.

Oil Quotations.—On 47 1/2, April 14, 1892, balance \$10.00.

St. Louis, April 14.—Wool unchanged; medium, 150.50; coarse, 152.00; superfine, 170.42; average, 158.99.
